XGi

THE BEST TAILORED TECHNOLOGY FOR YOUR BAR.

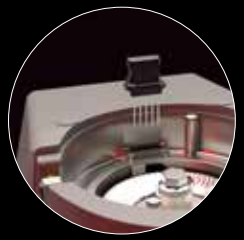
In order to obtain a quality espresso you must respect some basic but very important rules. **One of these is to keep constant the dose of coffe**e. This is why Fiorenzato patented an exclusive system able to guarantee perfect results every time: introducing the **XGi** grinder-dosers, **requiring just a one-time setting of the right amount of coffee to be dispensed**, calculated in grams and thus always perfect.

Their secret?
Thanks to the load **cell located** in the bottom of XGi coffee grinders and to a software that records and processes data, **every single dose of blend always contains the exact amount of coffee required, resulting in a perfect cup of coffee every time**.

- **less waste,** because it allows you to precisely adjust the amount of coffee to be ground;
- **constant control of the number of ground grams,** thanks to the software monitoring the weight even when the machine is on stand-by;
- **greater precision and quality,** because the weight of each individual dose in grams is always the same;
- **extremely easy to use,** as the barista only has to specify how many grams of coffee they want to obtain once

Easily detachable grinding chamber

No grinding point setting variation



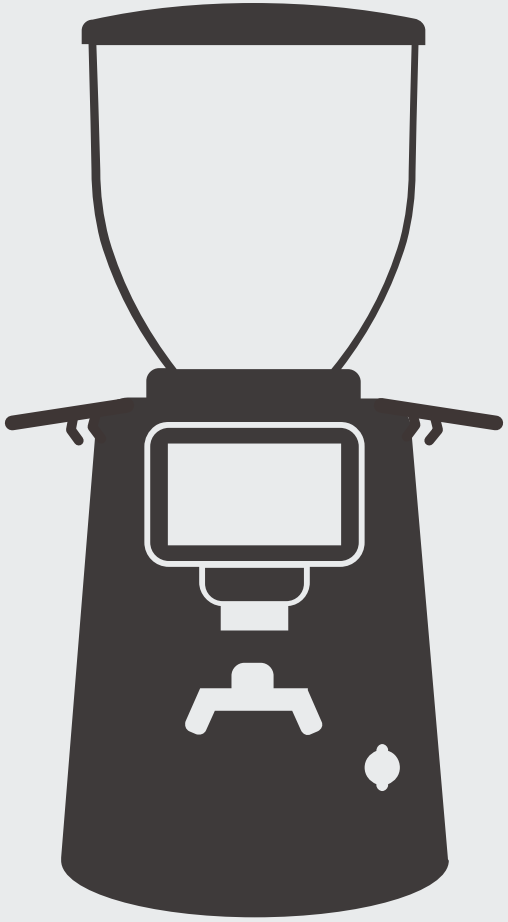
Easy and quick cleaning and maintenance

Up to 50% less coffee retention

THE PRO LINE

Fiorenzato presents the first range of **professional coffee grinders with a new powerful detachable grinding chamber easy to release**.
A small revolution that allows to manage spaces dedicated to coffee grinding in a simple, **fast and intuitive way**.

In fact, simply release the two levers located on either side of the coffee grinder to easily remove the grinding chamber, without changing the distance between the grinders.



Pro coffee grinders

Coffee grinders with a new powerful detachable grinding chamber easy to release.

Pro coffee grinders

F5 A PRO
With 64-mm flat burrs and 350-Watt power.

F6 A PRO
With 83-mm flat burrs and 650-Watt power.

F71 AK PRO
With 71-mm conical burrs and 850-Watt power.

F64 E PRO
With 64-mm flat burrs and 350-Watt power.

F64 EVO PRO
With 64-mm flat burrs and 350-Watt power.

F83 E PRO
With 83-mm flat burrs and 650-Watt power.

F71 EK PRO
With 71-mm conical burrs and 850-Watt power.

F64 E XGi PRO
With 64-mm flat burrs and 350-Watt power.

F64 EVO XGi PRO
With 64-mm burrs and automatic cooling fan.

F83 E XGi PRO
With 83-mm flat burrs and capacity of 1350-1550 revs per minute.

F71 EK XGi PRO
With 71-mm conical burrs and 850-Watt power.

F64 EVO XGi PRO

With 64-mm burrs and automatic cooling fan.

- Doses adjustment: **in grams**
- Ring nut micrometric grinding adjustment: **continuous**
- Varnishing: **standard**
- Fork: **adjustable, with support**
- Power: **350 watt**
- Blades type: **flat**
- Blades diameter: **Ø 64 mm**
- Blades revs: **1350/min (50 Hz) – 1550/min (60 Hz)**
- Coffee bean hopper capacity: **1,5 kg**
- Net weight: **15,3 kg**
- Dimensions: **255x635x320 mm**
- Recommended consumption: **Up to 3 kg per day**
- Burrs life: **400 kg (x 4 if Red Speed)**

NOTE: The motor cooling fan is activated electronically.
